

MOFFAT MAY NOT BUILD THROUGH

Claims Gore Canyon is Necessary to Short Line to Salt Lake.

CAN'T FIGHT GOVERNMENT

HAS MONEY, HOWEVER, TO CONSTRUCT LINE.

Denver, June 26.—The Post today says: The Moffat road may never be built further west than Hot Sulphur Springs. "I can't fight the government," it is said, "I am going to build to Hot Sulphur Springs and will not go any farther until the injunction suit against my road is disposed of."

The attitude of Mr. Moffat is that Gore canyon is absolutely necessary to build a short road to Salt Lake City. Mr. Moffat reiterated today the announcement that he had been successful in placing securities which would enable him to get finance to build his road. Edwin Sweet & Co. will advance the money as needed, it is said.

In case Mr. Moffat holds to his belief that Gore canyon is necessary to the success of his project, and the government will not yield, the proposed short road to Salt Lake will go no farther than the county seat of Grand county, Colorado, mentioned in the above Associated Press dispatch.

Mr. Moffat's declaration follows several sessions of recent date between himself and President Roosevelt at Washington. While Mr. Moffat expressed an opinion at that time that he would be fairly dealt with in his efforts to push his road through Gore canyon, he was opposed by the interior department officials, who claimed that the federal irrigation project in the Gore canyon plays an important part should be given prior consideration over the railroad. The people of Colorado in the territory which would be affected by the irrigation scheme have already expressed themselves as favoring the Moffat short cut, even though it would eliminate any possibility of the water proposition going through.

Moffat Files Suit.

Washington, June 25.—David H. Moffat of Denver, Colorado, has filed suit in the supreme court of the District of Columbia against the Chesapeake and Ohio railway to recover \$12,250,000, alleged to be due as a promissory note given in December, 1894, and made payable on demand.

TO CUT OFF NINE HOURS.

S. P. Will Have Better Service Between San Francisco and Portland.

Portland, Ore., June 26.—General Manager J. P. O'Brien has determined to reduce the running time of Southern Pacific trains between San Francisco and Portland to twenty-seven hours—nine hours less than the present service between the two points. This great saving in time will be accomplished by adding another train to the line, thereby avoiding lengthy stops along the route. This plan has been in contemplation for a long time, but the great saving in time will be accomplished by adding another train to the line, thereby avoiding lengthy stops along the route.

TO HAVE JOINT LINE.

Northern Pacific and O. R. & N. Will Own Riparian-Lewisville Road.

Portland, Ore., June 26.—President Howard Elliott today made the following announcement to the Telegram regarding the plans of the Northern Pacific Railroad company:

"The Northern Pacific will not build down the north bank of the Columbia. The extension from Lewisville to Grangeville for the Clearwater country, is the only building work the Northern Pacific contemplates in the Pacific Northwest. The road to be built by the Oregon Railroad & Navigation company from Grangeville to Lewisville will be owned by the Northern Pacific and the Harbinger interests."

TOURIST TRAVEL HEAVY.

Railroads and Hotels Report Big Traffic and Zion Benefits.

All railroads entering Salt Lake and the local hotels report an unusually heavy tourist travel through this city. The business is slightly in excess of the average, although the Salt Lake route is bringing in a few travelers through this city to northern and eastern points. An evidence of this is the fact that tomorrow morning the Salt Lake express will leave Los Angeles with two extra sixteen-section tourist coaches, carrying Angels from the Pacific coast to the mountains. The entire party will stop over one day in Salt Lake, and then continue on to the Lewis and Clark fair and national conventions about to begin on the coast tomorrow.

Railroad Notes.

Major Fred Reed of the Burlington townsite company has been named as guest at the Kenyon. Major Reed is one of the general agents of the land company.

Before the end of the week work will have begun on a handsome passenger depot at Las Vegas. The depot will be built in Spanish mission style, with red tile roof. The foundation of the Salt Lake route to park the grounds about the depot.

A FOOD EXPERT

produced GRAPE-NUTS food to supply the elements needed by Brain and Nerve centres.

It is ready cooked, deliciously crisp, has a fascinating flavor, and the "London Lancet" pronounces it a "complete food" of the "highest nutritive value."

CONCESSIONS ARE MADE TO CITY

Contracts With Farmers For Water Are Modified.

BOND ORDINANCE PASSED

CITY RECORDER TO DELIVER BONDS TO PURCHASER.

Mayor Richard W. Morris, Assistant City Attorney W. H. Bramm, Attorney F. S. Richards, and Asahel Snow, representing the city yesterday called upon A. B. Irvine and others, representing the canal companies and the farmers with whom the city proposes to exchange water, and announced to them modifications of the water contracts. These modifications were agreed to, and at last night's meeting of the city council, the city in special message, submitted them for the consideration of that body.

Later the resolutions came before the council in the form of a resolution instructing the mayor to enter into new contracts with the canal companies and farmers, and this was adopted by a vote of 12 yeas to 1 no.

The resolution instructs the mayor to enter into a modified contract with the Big Cottonwood Lower Canal company for the exchange of water, the company to be paid \$500 on or before July 1, 1905.

It also instructs the mayor to enter into a similar contract with the Big Truck Irrigation company, which is to be paid \$500 on or before July 1, 1905.

It also instructs the mayor to enter into a similar contract with A. B. Irvine, William H. Park and other farmers, who are to be paid \$500 on or before July 1, 1905.

Concessions to City.

Mayor Morris, in his communication, said that he and Assistant City Attorney Bramm and Mr. Richards and Mr. Snow had succeeded in inducing the canal companies and the farmers to consent to extend the time in which the city may accept the water from twelve to twenty-four hours, thus gaining twelve hours for the city. It had also been agreed that the measurements of water provided for in the options should be made on the last day of June and August of each year.

These are the modifications embodied in the resolutions which were adopted by the council. When the resolution was before the council for adoption, Councilman Wood moved to strike out the provision that the city might furnish water from Spring creek. He said the plan adopted by the people at the special election held Jan. 3, 1905, made no reference to Spring creek, and it should not be mentioned at this time.

Councilmen Holiday, Black, Neuhouser and Martin voted with Councilman Wood to strike out the reference to Spring creek. All the other members of the council except Councilman Hartenstein, who was absent, voted against the motion.

The resolution was then adopted by a vote of 12 yeas to 1 no, Councilman Black voting against it.

Bond Ordinance Passed.

An ordinance providing for the issue and negotiation of \$50,000 water and sewer bonds, which will be found in full in the advertising columns of this issue of The Herald, was passed by the unanimous vote of the fourteen councilmen present.

A resolution appropriating \$200, or as much as may be necessary, to defray the expenses of City Recorder John S. Critchlow, who will leave for New York City tomorrow with \$50,000 of the \$50,000 bond issue to be delivered to the city, was adopted. The resolution was adopted by a vote of 14 yeas to 0 no.

All voted for this resolution except Councilman Wood, who thought the sum was too much to spend in delivering the first \$50,000 of the bonds.

Music and Drama

"The Belle of Richmond" is a charming young southern lady, who after much misadventure, comes to her own in the last act of the play, which opened last night at the Grand theatre. The play is of the good, old-fashioned southern type, always popular and enjoyable.

Last night's audience filled the Grand to its capacity. "The Belle of Richmond" will be given again tonight, tomorrow afternoon and tomorrow night.

"Clay Clement's old favorite," "The New Dominion," was put on by the Utah stock company last night. The piece was well presented and thoroughly enjoyed by the audience. It is a Martin comedy, with Clay Clement, who was exceptionally good as Hobbs-Hustler.

The "New Dominion" will continue during the week. An interesting feature of the performance last night was the changing of the stage setting with the movements of the burlesque scene shifters and the disappearance of the old homestead to make room for a reception hall was most entertaining to those who had never witnessed the changing of a scene before, while illumination also will continue through the week.

PRICE GETS THE PLUM.

Appointed State Statistician to Succed De Moisy.

Governor John C. Cutler yesterday appointed Fred W. Price commissioner of the state bureau of statistics, to fill the place that will be made vacant when Charles De Moisy leaves office.

Mr. Price is now in Salt Lake, having held the job ever since the state board of statistics was organized four years ago. He has received a number of applications for appointment to the position of deputy, but is not yet ready to announce who the successful applicant will be.

IT'S A CAME SALE

Where Their Dollars Go Farthest

ONE PRICE TO ALL NEVER UNDERSOLD

This morning we resume the sale that has set the town agog--the sale that has forced competition to retreat and leave us the "champions" in the field. NO PART OF OUR STOCK IS IMMUNE FROM THE SACRIFICE. Every article is included in this greatest of all bargain sales. Don't wait. Come today!

TAXES MUST BE PAID

County Commissioners Refuse to Make Abatement For Farmers and Gardeners.

The county board of equalization held its final session for 1905 yesterday afternoon. It was decided not to grant the petitions of the hundreds of farmers and gardeners who applied to have their assessments reduced because of the damage done to their crops, trees and livestock by fumes from the smelters.

The members of the board were agreed that it would be unjust to the other property owners of the county to reduce the assessments of the petitioners. They held that as the county must have a certain amount of revenue, if the petitions of the farmers and gardeners were granted the assessments on other property owners would have to be increased, in order to make up the deficit.

Commissioner W. W. Mackay, who is chairman of the county board of health, said after the adjournment of the board of equalization that he would take steps in the near future to enforce the order issued by the county board of health a couple of months ago to the smelters to abate the smoke nuisance, but he says they will be less than \$200,000. Last year they amounted on all classes of property to \$556,411. Up to June 22 of this year the total of the abatement was \$2,345.50 "cash," amounting to \$108,463. The "cash" item is the reduction on property belonging to widows and orphans.

JOHN ORGE'S PETITION.

Asks Pay For Water He Finds With Divining Rod.

John Orge presented a petition to the city council last night in which he asked permission to demonstrate his ability to find an abundance of pure water by means of his faithful divining rod. His offer contained what seemed to some of the members of the council reasonable terms. All he asked was that the council agree to pay him \$5,000 for each 1,000,000 gallons of water that he causes to flow daily in Salt Lake City, additional to the present supply. The petition was referred to the waterworks committee.

At the request of City Superintendent of Schools D. H. Christensen, Member of the Board of Education Mathew Pollock, City Recorder J. S. Critchlow was instructed to extend an invitation to the National Educational association to hold its annual convention in July, 1906, in Salt Lake City.

A protest from the college against the proposed cutting of streets through the college campus was referred to the committee on streets and the committee on streets.

A petition was received from Gould B. Blakely, trustee of the estate in bankruptcy of B. H. Schettler, asking that the sidewalk tax of \$12 assessed against the Schettler property at South Temple and C streets be rebated, for the reason that no sidewalk has been constructed and the tax is a cloud on the property. Referred to the committee on streets.

The council appropriated \$7,500 to pay the American La France Fire Engine company of Elmira, N. Y., for a fire engine received from them last week.

The request of the public library board for an appropriation of \$5,000 with which to buy furniture for the new public library building, made at the last meeting of the council, was granted, the vote being unanimous.

"SWEDE SAM" IN TOWN.

Noted Butte Sport Returns Via Salt Lake.

"Swede Sam" Wallen of Butte, noted throughout the west for his sporting activities, was in Salt Lake yesterday en route to Butte. After a trip east with a millionnaire F. Augustus Heinze and a few other intimate friends of the latter, he had taken a trip to the coast and the other members of the party passed Getham with greenbacks during their few weeks' stay.

Mr. Wallen has probably made heavier gains at faro and "wheel" than any other gambler in recent years. He has lost as high as \$30,000 during the course of an evening's session at the game. On one occasion he placed a thousand-dollar bill on a single number of the wheel, and after the ball had taken its final jump he was handed \$25,000.

PARK KNIGHTS TEMPLARS

Commandery Instituted by Brethren, Who Come by Special Train For That Purpose.

(Special to The Herald.)

Park City, June 26.—Park City, in addition to its numerous other lodges, has now a commandery of Knights Templar. The work of instituting it was done tonight by members of the Salt Lake and Ogden commanderies of the order. The institution of Malta commandery No. 3, as the Park City lodge will be known, had been completed some time ago, and about eight local Masons were introduced and accepted by the Salt Lake commandery early in the year, so as to comply with the rules of the order in instituting new lodges.

The Salt Lake and Ogden knights came to the Park this evening by special train to give the Park City lodge its charter. They were met at the depot by the local knights, and a reviewing stand had been erected, and the entire procession reviewed by Grand Master Commander Emperson. Following this the visitors were apportioned among the different hotels.

Work in the new lodge was begun about 8 o'clock. The prospective members, who were met at the depot by the local knights, and a reviewing stand had been erected, and the entire procession reviewed by Grand Master Commander Emperson. Following this the visitors were apportioned among the different hotels.

The work of installation was done by the local knights, and a reviewing stand had been erected, and the entire procession reviewed by Grand Master Commander Emperson. Following this the visitors were apportioned among the different hotels.

FOURTH IN PARK CITY.

Committee of Active Men Named to Make Arrangements.

Park City, June 26.—The mass meeting held on Saturday evening for the purpose of making arrangements for the proper observance of the Fourth of July in Park City resulted in the appointment of a committee on finance composed of Arthur Williams, Charles J. Prisk and B. M. Sperry. A meeting to hear the result of this committee will be held during the coming week, and at this time the question of celebration and its magnitude will be definitely decided.

A fire in a stable belonging to "Lige" Main called the fire department out yesterday at noon. The fire was caused by a fire in a stable belonging to "Lige" Main called the fire department out yesterday at noon. The fire was caused by a fire in a stable belonging to "Lige" Main called the fire department out yesterday at noon.

The members of the Latter-day Saints' Sunday school were taken today by their teachers on a fishing excursion for the Weber river. The trip is to last a week and it is expected that the little ones will have a big time.

Mrs. John Fleury, accompanied by her son, returned to Park City this morning after a short absence. Walter Dickhaut came to town this morning to visit with his brother for a few days.

BUTCH CASSIDY AGAIN.

Said to be Prespecting in Mountains Near Thistle.

Provo, June 26.—While Deputy Sheriff Butch Cassidy was in Thistle yesterday he learned that one of the citizens had been seen in conversation with a stranger, and that "Butch" had some horses in the men he was seeking for the Tucker Saloon burglary, he approached the citizen and asked him the stranger was whom the man had been talking to. The man at first said he did not know him, and upon being asked by Deputy Sheriff Cassidy why he was talking to him if he had there was no complete letter to Superintendent Gardner of the sugar factory, in which the writer upbraided Mr. Gardner for lack of charity in not responding to his appeals for aid.

This led Deputy Sheriff Cassidy to further questioning, in which he expressed doubt about the correctness of the information. The man insisted that he was right, that he knew "Butch" well, and that "Butch" had some horses in the mountains near Thistle and was proceeding there, but as the deputy sheriff did not want him, replied:

"Well, if you want to know, it was 'Butch' Cassidy."

The American Fork baseball team suffered a severe defeat in Bingham Canyon at the hands of the miners. A return game will be played here on July 6. Yesterday's score was 3 to 15.

MALARIA

UNDERMINES THE HEALTH

When the germs of malaria enter the blood the entire health is affected, and if the blood is not purified of these germs and microbes, Chronic Sores and Ulcers, Liver Stitches, Chills and Fevers, Boils, Aches and Pains, and a great variety of troubles manifest themselves, and soon the entire system is undermined, leaving the sufferer a prey to a most miserable, weak and nervous condition.

913 W. Market St., Louisville, Ky.

For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would have a relapse. Finally a physician prescribed S. S. S. I took a few bottles, this was a bad mistake, and I have never been troubled since. I am sure no other medicine could have given me so complete and immediate relief. My partner in business is now taking S. S. S. for an eruption of the skin, and a severe run-down condition of the system, and although he has taken but one bottle, already commences to feel better.

S. S. S. counteracts and drives all the poison from the blood and builds up the system by its fine purifying qualities and tonic effects. It strengthens every part, increases the appetite, helps the stomach and digestion, and by purifying the blood, puts every part of the body in healthy condition. Book on the blood and any medical advice desired without charge.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

PURELY VEGETABLE. Of any kind to disagreeably affect the stomach, digestion and bowels, but by cleansing and strengthening the blood, puts every part of the body in healthy condition. Book on the blood and any medical advice desired without charge.

BOSWELL USED CYANIDE.

American Fork, June 26.—Rev. L. H. Butch Cassidy, who telegraphed the circumstances of the suicide of W. T. Boswell, has wired Marshall Butts of Lehi to send the body to Michigan for interment. This will be done. When Undertaker Emil Anderson of this place was preparing the body for burial he found a partially empty bottle of cyanide of potassium, which is believed to have been the poison used. There was also an incomplete letter to Superintendent Gardner of the sugar factory, in which the writer upbraided Mr. Gardner for lack of charity in not responding to his appeals for aid.

The man who tells you that we cannot issue a RELIABLE RATING BOOK. It will contain more names and be more accurate than any heretofore published in Utah.
